IN THE MATTER OF:

APPLICATION FOR CERTIFICATION FOR THE
CANYON POWER PLANT

DOCKET No. 07-AFC-9

COMMITTEE SCHEDULING ORDER

On March 12, 2008, the Application for Certification (AFC) was deemed data adequate for the twelve-month review process prescribed in Public Resources Code, section 25540.6. The Committee conducted a public informational hearing on April 15, 2008, to discuss the schedule and other issues of concern. The attached Committee Schedule is based upon Staff's proposed schedule and the related discussion at the informational hearing.

The Committee Schedule contains a list of events that must occur to complete the certification process in twelve months. Dates are provided for the period leading up to the Prehearing Conference, during which the balance of the schedule will be set.

Several milestones are dependent upon reviews to be conducted by federal, state, and local agencies, as well as the timely provision of additional information by the Applicant. A key agency review is the South Coast Air Quality Management District's Determination of Compliance.

We may modify the schedule at any time upon either our own motion or that of a party. [Cal. Code Regs., tit. 20, § 1709.7(c)]. The schedule includes conditional status reports to determine whether case development is progressing satisfactorily, and to bring potential schedule delays or other relevant matters to our attention.

The Committee is interested in two issues that were touched on at the informational hearing related to Anaheim's future energy loads and resources. The first issue is how Anaheim has factored into its load forecast the Energy Commission policy adopted in its Integrated Energy Policy Report that municipal utilities should achieve all 100 percent of cost-effective energy efficiency potential by a combination of utility programs, state and local standards, and other programs. (IEPR, p. 99.) The second issue is what renewable resource additions Anaheim intends to pursue over the next ten years to meet its renewable portfolio standard goal of 20 percent in 2015. (See, IEPR, p. 132.) We invite the

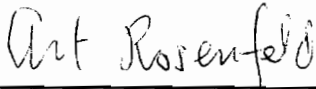

Applicant, and any other party or interested person who wishes, to address these questions either in a report to the Committee or in its testimony at the evidentiary hearings on the AFC. The IEPR may be found at:
